

A proud initiative brought to you by
The Sanctuary and The Play Space Incorporated

Welcome to the Full Circle Food Program. An initiative created with the intention of completely eliminating food waste and to ensure that all food is used to its full potential.

We're excited that you are interested in taking part in this incredible program. This information pack has been created to provide you with an understanding of our program and answer any questions you may have.

Did you know???

So now we want to join forces with you!

Take your time to learn about the program in the following pages. When you're ready, just reach out to us using the contact details at the end of this pack.

So how does it work?

Well that depends on your situation (I'll tell you more about this below) but essentially, we provide you with the tools and supplies you need to collect your food waste. Our systems are simple, we make it very easy for you to completely eliminate food waste!

We can use almost everything! Uneaten portions of meals or snacks, fresh produce scraps, off cuts and even the crumbs from your plates.

Commercial Premises

In a commercial or business environment we come to you and collect daily. Our team will attend for an initial meeting to orientate ourselves to your layout and provide you with a start up kit. This will include posters, information sheets and of course, food safe collection buckets. Once in place all you need to do is dispose of your food waste into the buckets, produce scraps into one and all other food waste into the other. If you are also donating food that is safe for human consumption our team member will discuss this with you. Once a day we will attend your location and collect any buckets that contain waste and replace them with clean ones. It's that easy!

Residential Homes

Trial Phase

If you would like to eliminate food waste at home, we have a drop off point located in central Murray Bridge that can be accessed 24/7. It's as simple as collecting your food waste and dropping it off at your convenience. We can provide you with posters and information sheets to assist you with understanding what can and cannot go into our waste drop off bins but most food waste is accepted.

Parties and Events

Having a get together with family or friends? Maybe a business lunch?

We can accept your food waste from there too!

Prior to your event we will provide you with a kit that contains food safe buckets, takeaway containers, posters and information sheets. All food that is safe for human consumption can be put into our containers and the buckets can be placed anywhere at your event that suits you so that you and/or your guests can easily dispose of any uneaten food waste or scraps. After your event someone from our team will collect everything from you! Easy peasy!

Where does it go?

Food that is safe for human consumption is distributed to needy families. This may be from us directly to families we know are in need or we also have partners that we work closely with who can distribute your food on our behalf. We do not judge or discriminate those that receive food from us and there are no requirements or income tests. If someone needs help, we help them.

Produce scraps and food waste go to The Sanctuary. This is an initiative from The Play Space that cares for surrendered animals where they are either rehomed, adopted or come with us to our community events. Our inclusive community events are extremely popular and enable people of all ages and abilities the chance to interact with animals in a judgement free zone.

Produce scraps are primarily used to feed the guinea pigs and rabbits with food scraps feeding the poultry which includes chickens, ducks and even a goose named Moose!

What goes in the buckets?

Businesses and Events that utilise our collection buckets will both use the same system. You will be provided with a 'Produce' bucket and a 'Scraps' bucket, below we will detail what can go in each.

When you use our Full Circle Food Program you will also be provided with posters to help you.

- Raw Vegetables
- Fresh Fruits
- Peel And Skin From Produce
- Onion Or Potato
- Seeds
- Cooked Food
- Food That Is Not Raw Produce
- Rotten Or Mouldy Food

- | | |
|--|---|
| <input checked="" type="checkbox"/> Leftovers | <input checked="" type="checkbox"/> Liquids |
| <input checked="" type="checkbox"/> Plate Scraps | <input checked="" type="checkbox"/> Sauce (already on food is fine) |
| <input checked="" type="checkbox"/> Bread | <input checked="" type="checkbox"/> Ice Cream |
| <input checked="" type="checkbox"/> Pastries | <input checked="" type="checkbox"/> Coffee |
| <input checked="" type="checkbox"/> Chips | <input checked="" type="checkbox"/> Confectionery and Lollies |
| <input checked="" type="checkbox"/> Cake | <input checked="" type="checkbox"/> Whole Onions or Potatoes |
| <input checked="" type="checkbox"/> Meat | <input checked="" type="checkbox"/> Rotten or Mouldy Food |

Easy right? And a copy of these simple instructions is included with your buckets too!
